Legend

Road Closed

Temporary closures required during asphalt paving operations

All,

Starting as early as Tuesday, May 12, 2020, construction on Seerley Blvd between Valley Park Drive and Melrose Drive will begin. You may expect the following sequence of activities:

- **Curb and Gutter Spot Repair**
The roadway will remain open during these removals but may be limited to access from one end or the other depending on where the contractor is working. During this construction, street parking and driveway access along Valley Park Dr, Royal Dr and Melrose Dr may be limited. The contractor will post "No Parking" signs along the street prior to the start of construction. Once these are posted please be sure to relocate your vehicles out of your driveway.
- **Intake Modifications**
The existing intake tops need to be modified to bring these up to finish grade. This will take 4-6 days dependent on weather.
- **Base Pavement (Asphalt)**
The base will be placed in one day and may be driven on soon thereafter as allowed by the contractor.
- **Surface Pavement (Asphalt)**
During surface paving the roadway, portions will be closed as required to allow the pavement to cool.

- Sod Replacement
Following the construction of any curb and gutter repair, the contractor will begin restoring the sod along the curb-line and driveways as required. Depending on the time of year and weather conditions, this process may take up to an additional three to four weeks for grow-in.

Weather permitting this construction process will take approximately **two (2) to three (3) weeks** with additional time for sod replacement. Thank you for your cooperation. If you have any questions or concerns, please contact me at (319)-268-5165.

Sincerely,

JONATHAN P. FITCH, P.E.

Principal Engineer
